NEW! SAP Leonardo Demo Series

[Demo Session: Automating Finance with SAP Leonardo Machine Learning \(Feb 12, 2018\)](#)

Description

Service and Support

CCOE: What a Customer COE Should Know about the New Contract & License Management Application – German (Jan 15, 2019)

SAP recently announced applications for Customer COE contract & license management activities - License Utilization Preparation Area (LUPA) and License Utilization Information (LUI). The session will explain the features & functions of the two applications in detail as well as roadmap. [Read more](#)

CCOE: What a Customer COE Should Know about the New Contract & License Management Application – English (Jan 17, 2019)

SAP recently announced applications for Customer COE contract & license management activities - License Utilization Preparation Area (LUPA) and License Utilization Information (LUI). The session will explain the features & functions of the two applications in detail as well as roadmap. [Read more](#)

Transformation Navigator

Create a Product Map from Scratch and Usage Data (Jan 14, 2019)

In this session, learn to understand the value and purpose of Product Maps, leverage the tool to create a Product Map from scratch and see the array of SAP products the customer is currently running and what the tool recommends for the future. [Read more](#)

Create a Product Map from Industry Template and Plan Ahead with Time Slider plus Product Details (Jan 16, 2019)

In this session, learn to understand the value and purpose of Product Maps, leverage the tool to create a Product Map from an existing Industry-focused Template, gain a deeper understanding of your customer's industry and the types of solutions their industry peers are utilizing, learn to understand the value and purpose of the Time Slider feature of the tool, see how the recommendations for your customer's selected products and capabilities will change over time and decide when is the right time to start your SAP customer's transformation journey. [Read more](#)

Extend Your Business with Capabilities and Prioritize Your Goals with Value Aspiration (Jan 21, 2019)

Understand the value and purpose of the Capabilities function of the tool, search for new and relevant capabilities to match your customer's evolving needs, compare the consolidated and line-by-line view functionality of the tool, understand the value and purpose of the Value Aspiration tab of the tool, prioritize the customer's aspirations through selecting value drivers and build a business case using the SAP Value Lifecycle Manager. [Read more](#)

Map Out Your Transformation Journey and Create Customer Output Documents (Jan 23, 2019)

Understand the value and purpose of the Transformation Journey tab of the tool, gain a clear layout of the current products being used, the recommended products, and the type of transition involved in the transformation. Prioritize the recommended transformations and decide which are most important for your SAP customer to first implement. [Read more](#)

Collaborate with your Colleagues and Next Steps (Jan 28, 2019)

One year ago, SAP introduced the SAP Innovation and Optimization Pathfinder – helping IT leaders maximize value from their SAP investments and enable their company's strategy. Learn, how CIOs and IT managers leveraged the Pathfinder – to strengthen their bonds with the lines of business, to optimize their ERP operations, and to build their SAP roadmap and digital transformation.
